Endur IG

All Coeur d'Alene Series Vinyl Windows include Endur IG from Cardinal Glass. Their glass units have proven themselves over and over again in the field and in the lab. Endur IG is built on the proven technologies that have helped Cardinal IG units achieve the industry's lowest failure rate – only 0.20% over twenty years – because endurance is just as important as performance.

When it comes to performance, Endur IG excels. It endures through the hottest summers and coldest winters helping to optimize your home's thermal performance for years to come.

Preserve[®] Protective Film

Most windows show up to the home covered with finger prints, dirt, and scratches. When you buy new windows, you expect them to be in good condition. The glass on your cell phone and monitor are protected by an easy to remove film when you receive them.

Why should your new windows be any different? You are going to be looking out of these new windows for years to come, shouldn't you expect them to show up protected?

Preserve[®] Protective Film is placed on the interior and exterior of the Insulating Glass unit immediately after the glass unit is made to make sure that your new windows are delivered to you with care, clean and clear.

Low-E Glass / Argon Gas

All Coeur d'Alene Series Windows include Low-E 366® coated glass and argon gas designed to make your home more comfortable and energy efficient. Coeur d'Alene Series Windows also include lower maintenance Neat® Easy-Clean glass and less obtrusive Ultra-view screens.

About Us

The Coeur d'Alene Series of windows was designed for home owners and home builders who still care about quality and craftsmanship. In recent years, the industry has seen a rush toward thinner frames and cheaper construction. The Coeur d'Alene Series features thicker walls and a wider exterior than typical low-end construction grade products. At The Coeur d'Alene Window Company, we are committed to providing discerning builders and homeowners with a product they can be proud to put in their homes and projects.

Color Selection

The Coeur d'Alene Series is available in white, adobe and bronze colors.

WHITE

ADOBE

BRONZE
